Screen Protection

Tempered Glass

9H hardness with oleophobic coating to combat scratches and fingerprints;

Touch-responsive and clear just as the original screen;

Compatible with all DUX DUCIS cases.

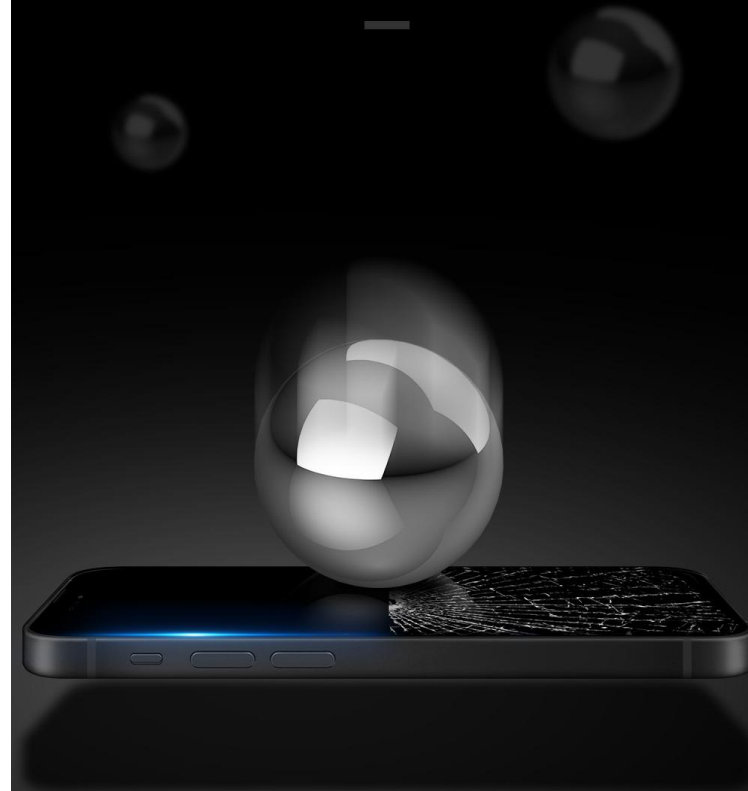

HD View

Preserves the Original Viewing Quality

Explosion Proof  
Effective Protection

Protect the Screen Against Scratches

FULL SCREEN PROTECTION

## Screen Protection

### Privacy

9H hardness with oleophobic coating to combat scratches and fingerprints;

Touch-responsive and clear just as the original screen;

View the screen clearly from the front, and the screen becomes black if the viewing angle is less than  $30^\circ$

Compatible with all DUX DUCIS cases.

For iPhone XR

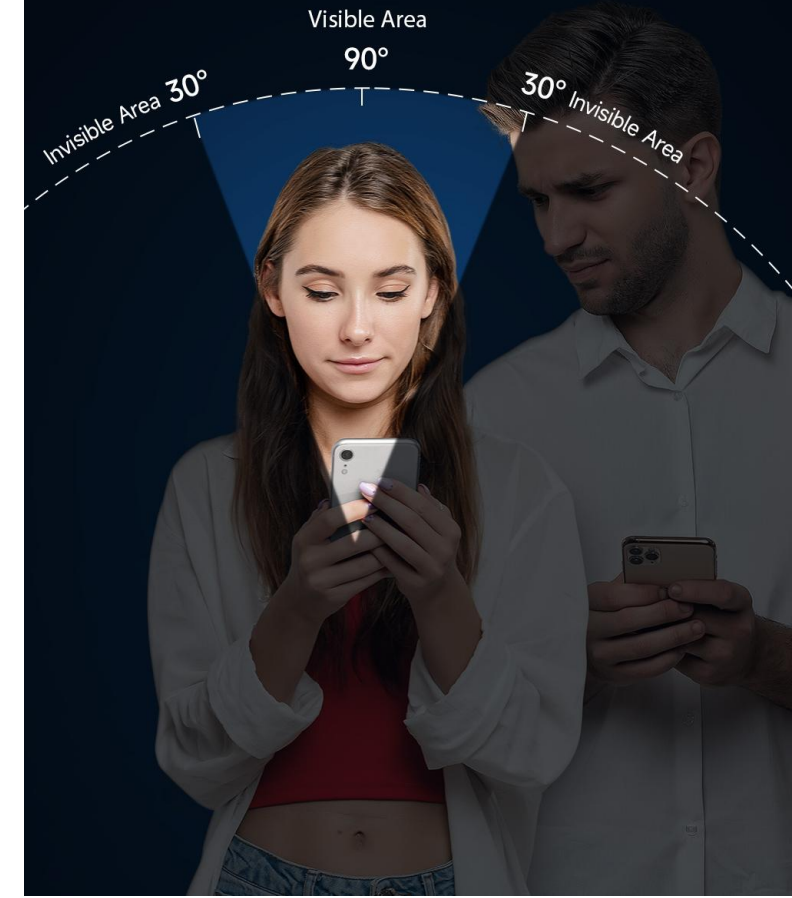

# Privacy Screen Protector

9H Hardness | Tempered Glass

## Privacy Protection Invisible from both Sides

View the screen clearly from the front, and the screen becomes black if the viewing angle is less than  $30^\circ$   
The smaller the screen brightness, the better the anti-peeping effect

# Screen Protection

## Tempered Glass

9H hardness with oleophobic coating to combat scratches and fingerprints;

Touch-responsive and clear just as the original screen;

Compatible with all DUX DUCIS cases.

## Screen Protection

### Paper-like/Naad

It has a slightly frosted surface, making writing or drawing on it just like writing or drawing on real paper. Its surface has a special coating that will not damage the tip of the stylus pen.

Its black frame is neither sticky nor magnetic, and the innovative nano-vacuum adsorption technology allows it to be firmly attached to the tablet screen. It is easy to install and bubble-free. We specially provided "little ears" stickers, which can be pasted on the designated position of the paper-like film so that it is effortless to remove the paper-like film.

It is removable and washable and can be reused. When you want to watch high-definition movies on the tablet, you can detach it and store it in the storage clip. You can use it directly on the tempered glass film, but we still recommend you use it on the original screen.

# Detachable Paper-like Protector

Paper Touch | More Responsive | Strong Adsorption

Screen Protection

Privacy/Leno

View the screen clearly from the front, there will be no grid on the screen and no discomfort to your eyes, the screen becomes black if the viewing angle is less than 30°, the smaller the screen brightness, the better the anti-peeping effect.

Its black frame is neither sticky nor magnetic, and the innovative nano-vacuum adsorption technology allows it to be firmly attached to the laptop screen. It is easy to install and bubble-free, glueless adsorption leaves no trace and no damage to screen coating.

It is removable and washable and can be reused. When you want to watch high-definition movies on the laptop, you can detach it and store it in the storage clip.

LEON Series

## MacBook Detachable Privacy Screen Protector

Designed for MacBook  
to protect your privacy

## Privacy Protection Visible From The Front Invisible From Both Sides

View the screen clearly from the front,  
and the screen becomes black if the viewing angle  
is less than 30°
