## PRODUCTION PHOTOS

# PHONE CASE

# Aimo Series Non-Magnetic Case

Material: TPU+PC

Features: Frosted back panel with flowing line texture;  
Precision holes for full lens protection;  
Wear-resistant and drop-proof;  
Anti-fingerprint, comfortable to hold.

# Aimo Series Magnetic Case

Material: TPU+PC+Magnet

Features: Frosted back panel with flowing line texture;  
Precision holes for full lens protection;  
Wear-resistant and drop-proof;  
Anti-fingerprint, comfortable to hold;  
Support magnetic charging.

# Aimo Series Magnetic Stand Case

Material: TPU+PC+Magnet+Aluminum Alloy

Features: Frosted back panel with flowing line texture;  
 Precision holes for full lens protection;  
 Wear-resistant and drop-proof;  
 Anti-fingerprint, comfortable to hold;  
 Support magnetic charging;  
 Folding mobile phone stand, can support mobile phone horizontally/vertically.

# Clin Series Magnetic Case

Material: TPU+PC+Magnet

Features: Made of high-quality Bayer raw materials;  
Clear and translucent, resistant to yellowing;  
Four-corner drop-proof airbags;  
Anti-fingerprint, comfortable to hold;  
Support magnetic charging.

# Rafi II Series Magnetic Stand Case

Material: TPU+PC+Stainless Steel+Magnet

Features: Double card pocket design, the inner card pocket has RFID-blocking function;  
Wear-resistant and drop-proof;  
Anti-slip frame, comfortable to hold;  
Support magnetic charging;  
Folding mobile phone stand, can support mobile phone horizontally/vertically.

# Yind Series Non-Magnetic Case

Material: TPU+PC

Features: Made of high-quality Bayer raw materials;  
Translucent, matte finishes;  
Four-corner drop-proof airbags;  
Anti-fingerprint, comfortable to hold.

# Yind Series Magnetic Case

Material: TPU+PC+Magnet

Features: Made of high-quality Bayer raw materials;  
Translucent, matte finishes;  
Four-corner drop-proof airbags;  
Anti-fingerprint, comfortable to hold;  
Support magnetic charging.

# Yind Series Magnetic Case with Ring Stand

Material: TPU+PC+Magnet+Aluminum Alloy

Features: Made of high-quality Bayer raw materials;  
 Translucent, matte finishes;  
 Four-corner drop-proof airbags;  
 Anti-fingerprint, comfortable to hold;  
 Support magnetic charging;  
 Stand your phone in portrait/landscape orientation.

# Zest Series Magnetic Case

Material: PET+TPU+PC+Magnet

Features: Premium Shockproof Corner Protection;  
MagSafe & Magnetic Charging Compatibility;  
Fashionable Gradient Color Design;  
Bare-Phone Tactile Button Experience;  
Anti-Yellowing & Durable TPU Material.

# Skin Pro Series Folio Case

---

Material: PU+TPU

Features: Simple style, silky PU leather, comfortable to touch;  
Provide 360° comprehensive protection for mobile phone;  
Built-in single card pocket;  
Can be used as a mobile phone stand.

# Skin X Pro Series Folio Case

Material: PU+TPU+PC+Magnet

Features: Simple style, delicate PU leather;  
Transparent back panel;  
Anti-fingerprint, resistant to yellowing;  
Double card pocket design with RFID-blocking function;  
Magnetic closure;  
Provide 360° comprehensive protection for mobile phone.

# Skin X Pro Series Magnetic Case

Material: PU+TPU+PC+Magnet

Features: Simple style, delicate PU leather;  
Transparent back panel;  
Anti-fingerprint, resistant to yellowing;  
Double card pocket design with RFID-blocking function;  
Magnetic closure;  
Provide 360° comprehensive protection for mobile phone;  
Support magnetic charging.

# Skin X Pro Series Magnetic Case with 360° Ring Stand

Material: PU+TPU+PC+Magnet+Aluminum Alloy

Features: Simple style, delicate PU leather;  
 Transparent back panel;  
 Anti-fingerprint, resistant to yellowing;  
 Double card pocket design with RFID-blocking function;  
 Magnetic closure;  
 Provide 360° comprehensive protection for mobile phone;  
 Support magnetic charging;  
 The 360° ring stand ensures your phone remains stable no matter the viewing angle.

# Hivo Series Real Leather Folio Case

Material: Cowhide+PU+TPU

Features: Genuine leather, comfortable to the touch;  
 Provide 360° comprehensive protection for mobile phone;  
 Built-in dual card pockets, both with RFID-blocking function;  
 Magnetic closure;  
 Can be used as a mobile phone stand.

# Lawa Series Leather Wallet Case

Material: Wallet: leather + microfiber + metal / Case: TPU + PC

## Features:

Selected high-quality cowhide with dense stitching, comfortable to touch and elegant to look;

The magnetic back cover can be used alone after removal, and supports magnetic charging;

It is equipped with a short mobile phone lanyard, which can be hung on the wrist;

The wallet has a zipper, which can store a large amount of cash, cards and even coins.

# Bril Series Folding Folio Case

Material: PU+PC

Features: One-piece design;  
Provide 360° comprehensive protection for mobile phone;  
Does not affect the folding of mobile phone;  
Stylish design, delicate feel.

# Bril Series Folding Folio Case

Material: PU+PC

Features: One-piece design;  
Provide 360° comprehensive protection for mobile phone;  
Does not affect the folding of mobile phone;  
Magnetic closure;  
Can be used as a mobile phone stand.

# Bril Series Folding Folio Case with Pen Holder

Material: PU+PC

Features: One-piece design;  
Provide 360° comprehensive protection for mobile phone;  
Does not affect the folding of mobile phone;  
Magnetic closure;  
Can be used as a mobile phone stand;  
Samsung S Pen Fold Edition can be stored in the pen holder.

# Fitt Series Folding Folio Case

Material: PU+TPU

Features: Two-piece design for easy installation;  
Provide 360° comprehensive protection for mobile phone;  
Does not affect the folding of mobile phone;  
Stylish design, delicate feel.

## Sleek & Slim Comfortable Handling

The premium PU leather and the hard backplate make the grip and fit ideal for a foldable device.

## Hinge Protection Available

The phone hinge is covered and protected when folded.

## Fashion Style Nice Look, Nice Feel

Brighten up your day with this fashion case.

# Fitt Series Folding Folio Case

Material: PU+PC

Features: One-piece design;  
Provide 360° comprehensive protection for mobile phone;  
Does not affect the folding of mobile phone;  
Magnetic closure;  
Can be used as a mobile phone stand.

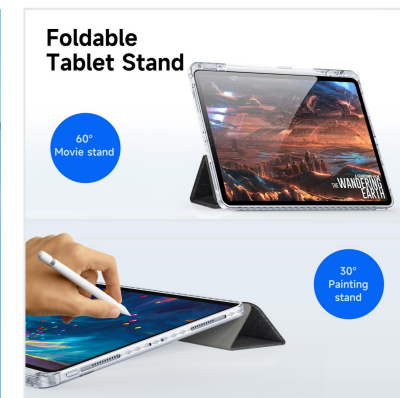

# TABLET CASE

# Unid Series Tri-fold Case

Material: PU+TPU+PC

Features: Made of high-quality solvent-free PU leather;  
Scratch-resistant and wear-resistant;  
Anti-fingerprint, delicate to touch;  
Transparent back panel, resistant to yellowing;  
Built-in pen holder;  
Provide 360° comprehensive protection for tablet;  
Magnetic closure;  
With automatic wake/sleep function;  
Can be used as a tablet stand to support the tablet horizontally.

# Unid Series Color-Printed Tri-fold Case

Material: PU+TPU+PC

Features: Made of high-quality solvent-free PU leather;  
Scratch-resistant and wear-resistant;  
Anti-fingerprint, delicate to touch;  
Transparent back panel, resistant to yellowing;  
Built-in pen holder;  
Provide 360° comprehensive protection for tablet;  
Magnetic closure;  
With automatic wake/sleep function;  
Can be used as a tablet stand to support the tablet horizontally.

# Toby Series Tri-fold Case

Material: PU+TPU+PC

Features: Silky leather, light and thin design;  
Scratch-resistant and wear-resistant;  
Anti-fingerprint, delicate to touch;  
Transparent back panel, resistant to yellowing;  
Built-in pen holder;  
Magnetic closure;  
Provide 360° comprehensive protection for tablet;  
With automatic wake/sleep function;  
Can be used as a tablet stand to support the tablet horizontally.

# Magi Series Multi-angle Stand Case

Material: PU+TPU+PC

Features: The front cover is removable and the back cover can be used separately;

Scratch-resistant, wear-resistant, anti-fingerprint;

Transparent back panel, resistant to yellowing;

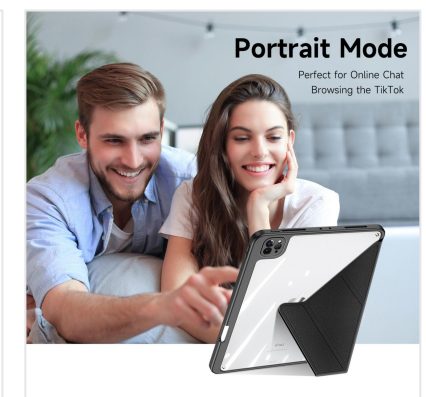

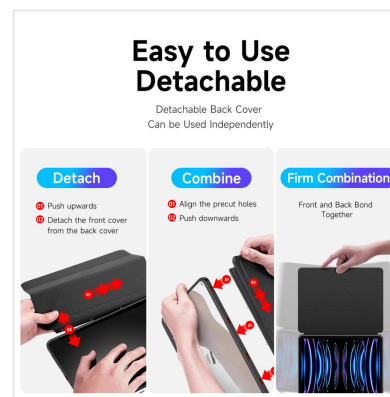

Built-in pen holder;

Magnetic closure

Provide 360° comprehensive protection for tablet;

With automatic wake/sleep function;

There are six support methods to support the tablet horizontally/vertically

# Domo Series Tri-fold Case

Material: PU+TPU

Features: Leather is scratch-resistant and wear-resistant, anti-fingerprint;  
Built-in pen holder;  
Magnetic closure;  
Provide 360° comprehensive protection for tablet;  
With automatic wake/sleep function;  
Can be used as a tablet stand to support the tablet horizontally.

# Panda Series Kids Case

Material: EVA

Features: Cartoon image, specially designed for children;  
 Environmentally friendly EVA material, safe and non-toxic;  
 Scratch-resistant, wear-resistant, anti-fingerprint, washable;  
 Flexible material, easy to install the remove the tablet;  
 Very light, children can lift it with one hand;  
 Optional shoulder strap;  
 Provide 360° comprehensive protection for tablet;  
 With pen holder;  
 Can be used as a tablet stand to support the tablet horizontally.

# Puff Series Kids Case

Material: EVA

Features: Eco-friendly EVA material, non-toxic and odorless, ensuring child-safe reliability.  
Full-coverage anti-drop design with soft rebound edges and reinforced corners.  
Dual-use triangle stand (video/drawing modes) for hands-free convenience.  
Lightweight build and built-in handle for effortless outdoor portability.  
Washable material, easy to clean, and maintains hygiene long-term.

# TABLET PERIPHERALS

# MK Pro Series Magnetic Keyboard

Material: Aluminum alloy

Features: 3mm ultra-thin body, corrosion/scratch-resistant with armor-like durability;

Instantly transforms between keyboard, stand, and case. Strong magnets secure tablet at any angle;

Multi-touch gestures (scroll, zoom, task-switch) for seamless productivity;

Quiet 1.5mm scissor keys, oil-resistant keycaps, and dreamy 7-color backlight;

Auto power on/off, 15.5mm slim profile, 60-day standby with 500mAh battery.

# LK Series Multi-function Keyboard

Material: Aluminum alloy+PC+ABS

Features: The keyboard features silent keys and an aluminum alloy shell, providing sturdy and durable construction with quiet and responsive operation;

Supports simultaneous connection to three devices, allowing efficient switching between devices with one-key operation for added convenience;

Equipped with a Type-C interface, it offers fast charging with 2 hours of charging providing approximately 130 hours of continuous working time, and includes an auto sleep mode for power saving.

# CK Series Transparent Keyboard

Material: Acrylic

Features: Scissor structure keys, comfortable to type;  
Colorful LED backlight breathing light, very cool;  
Thin, light and portable;  
Real-time display of battery power;  
Can connect to three devices at the same time via Bluetooth  
and switch easily with one click.

# DK Series Magnetic Keyboard Case

Material: PU+TPU

Features: Scissor structure keys, comfortable to type;  
 It is both a keyboard and a protective case, that are magnetically connected and can be detached;  
 Built-in pen holder;  
 Four stand modes, can support the tablet horizontally/vertically;  
 Bracket angle adjustable;  
 Built-in touchpad supports touch gestures.

# MK Series Magnetic Keyboard

Material: PU

Features: Scissor structure keys, comfortable to type;  
Both a keyboard and a protective case;  
Suspended to support tablet;  
Bracket angle adjustable;  
Built-in touchpad supports touch gestures;  
Colorful LED backlight breathing light, very cool.

# OK Series Multi-function Keyboard

Material: PU+aluminum alloy

Features: Scissor structure keys, comfortable to type;  
Comes with removable keyboard cover;  
The protective cover can be folded up to serve as a mobile phone/tablet stand;  
Thin, light and portable;  
Built-in foldable touchpad supports touch gestures;  
Can connect to three devices at the same time via Bluetooth and switch easily with one click.

# TK Series Keyboard Protective Case

Material: PU+TPU+ABS

Features: Scissor structure keys, comfortable to type;

It is both a keyboard and a protective case. The two are magnetically connected and can be detached;

The protective cover can be used as a tablet stand, and the angle of the stand is adjustable;

Built-in touchpad supports touch gestures.

# SP-05 Magnetic Charge Stylus Pen

Material: Aluminum alloy pen body + POM plastic pen tip

Features: The pen body displays battery power in real time;  
 No need to connect to Bluetooth, just touch the switch and it's ready to use;  
 Tilt pressure sensitivity allows you to draw thick and thin lines;  
 Full screen anti-accidental touch;  
 POM wear-resistant pen tip will not damage the screen;  
 Can be adsorbed on iPad for magnetic charging;  
 Compatible with a wide range of iPad models.

# SP-06 Digital Display Stylus Pen

Material: Aluminum alloy pen body + POM plastic pen tip

Features: The pen body displays battery power in real time;  
 No need to connect to Bluetooth, just touch the switch and it's ready to use;  
 Tilt pressure sensitivity allows you to draw thick and thin lines;  
 Full screen anti-accidental touch;  
 POM wear-resistant pen tip will not damage the screen;  
 Can be adsorbed on iPad;  
 Compatible with all iPad models including iPad 2024.

# LAPTOP ACCESSORIES

# EDGE Series Shoulder Laptop Bag

Material: polyester + PE Foam + PU

Features: Double-layer sponge & PE foam absorbs shocks, protects against drops and daily impacts;

Dedicated laptop zone, accessory storage, and quick-access pockets for all-in-one travel;

Dense fabric resists scratches, repels water, and wipes clean instantly;

Switch carrying styles;

attach to luggage with back strap;

PU handle for comfort;

Lightweight and portable;

Secures devices firmly;

dual zippers ensure quick access and added safety.

# LBBJ Series Shoulder Laptop Bag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;  
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;  
360° comprehensive protection for laptop;  
Fabric is splash-proof and resists water penetration;  
Double zipper pullers, smooth and easy to pull;  
Lightweight and portable;  
Large capacity, separate compartment design, can store laptops and respective accessories;  
Can be carried on one shoulder, carried by hand, or buckled on the suitcase trolley.

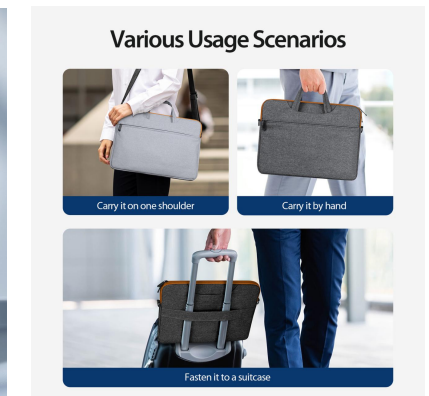

# LBJC Series Shoulder Laptop Bag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;  
Built-in pearl cotton compartment, shock-absorbing and compression-resistant;  
360° comprehensive protection for laptop;  
Fabric is splash-proof and resists water penetration;  
Double zipper pullers, smooth and easy to pull;  
Lightweight and portable;  
Large capacity, separate compartment design, can store laptops and respective accessories;  
Can be carried on one shoulder, carried by hand, or buckled on the suitcase trolley.

## LBTA Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

## LBTB Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

## LBTC Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

## LBTD Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

# LBDA Series Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable.

## LBDB Series Horizontal Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable.

# LBDC Series Vertical Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable.

## LENO Series Detachable Laptop Privacy Film

Material: PET

Features: 30° anti-peep, high-definition visible from the front, invisible from both sides;  
Nano glue-free adsorption, no damage to laptop screen coating;  
Automatic adsorption without bubbles, easy to remove;  
0.35mm thickness, does not affect the closure of the laptop;  
Washable and reusable.

# LCGH Series Laptop Protective Case

Material: TPU+PC

Features: Seamless fit, 360° full protection;  
 Anti-scratch and wear-resistant, anti-fingerprint;  
 Does not affect the opening and closing of the laptop;  
 Thin, light and portable;  
 Micro clip design, disassembly and assembly without damaging the machine;  
 With heat dissipation holes on the bottom;  
 The hole position is precise and does not affect the normal use of the laptop.

# LCGM Series Laptop Protective Case

Material: TPU+PC

Features: Seamless fit, 360° full protection;  
 Anti-scratch and wear-resistant, anti-fingerprint;  
 Does not affect the opening and closing of the laptop;  
 Thin, light and portable;  
 Micro clip design, disassembly and assembly without damaging the machine;  
 With heat dissipation holes on the bottom;  
 The hole position is precise and does not affect the normal use of the laptop.

# CM Series Transparent Mouse

Material: ABS+PC

Features: Bluetooth + 2.4G dual-mode wireless mouse;  
Can connect two devices at the same time and switch with one click;  
Mute button;  
Ergonomic design, fits the palm of your hand;  
Widely compatible with multiple operating systems;  
Colorful backlight breathing light, switch colors with one click;  
Built-in USB adapter;  
Fast movement, accurate positioning.

# DM Series Wireless Mouse

---

Material: ABS+PC+Silicone

Features: 4D 2.4G wireless technology with 10m stable range, anti-interference, and wired-like signal performance;  
Ergonomic curves fit natural hand posture, ensuring comfort for palm/claw/fingertip grips during prolonged use;  
Silicone scroll wheel, ABS-silicone materials, and 5-layer nano-coating for silky-smooth, wear-resistant durability;  
Removable battery for instant swaps, adjustable DPI (1600/1200/800) to adapt to diverse scenarios;  
Seamless multi-device compatibility (iOS/Windows/Android) with plug-and-play simplicity, no drivers required.

---

# X-Shaped Laptop Stand

Material: aluminum alloy + silicone

Features: Five levels of height adjustable;  
Suspended open design facilitates heat dissipation;  
Large area of silicone, no damage to the device;  
Widely compatible with laptops and tablets up to 17.3 inches;  
Can be folded and easy to carry.

## Strong Supporting Capacity

The X-shaped and triangular structures endow the stand with strong supporting capacity

## Stand Your Laptop With the Back Uncovered

Such design causes increased cooling of the laptop

## Height-adjustable Five Different Heights

Especially recommended if you use several laptops of different sizes

# WATCH CASES & BANDS

# OceanWave Series Silicone Strap

Material: stainless steel + silicone

Features: Light and weightless;

Snap-on interface, easy to disassemble and assemble;

Refreshing, breathable and comfortable to wear;

Washable and reusable.

## Elastomer High Performance

Made from high performance elastomer  
with a comfortable feeling

## Tubular Geometry

Such design allows it to  
stretch for a perfect fit  
even over a wetsuit

## Corrosion-resistant Stainless Steel Buckle

The adjustable buckle and loop  
secure the strap during high-speed  
water sports

# KJ Series Magnetic Strap

Material: silicone + magnet

Features: Magnetic design, easy to take off and wear;  
Elastic silicone, not tight on skin, moderate tightness;  
Snap-on interface, easy to disassemble and assemble;  
Can be washed and reused.

# CS Series Magnetic Silicone Apple Watch Strap

Material: Silicone + Magnets + Aluminium

Colors: Black/ Starlight / BlueBlack / GreenBlack / BrownGrey

Made of treated soft silicone and magnetic closure for intense workouts and everyday wear.

Moulded magnets help maintain a secure, comfortable fit throughout the day.

Features magnetic, elegant, comfortable and washable, will make you stand out of the rest.

# SD Series Magnetic Silicone Apple Watch Strap with Double-Sided Connector

Material: Silicone + Magnets + Stainless Steel

Colors: Black/Starlight Dark Gray/Light Gray Klein Blue/Beige  
Light Pink/Light Green Light Yellow/Starlight

Made of treated soft silicone and magnetic closure for intense workouts and everyday wear.

Moulded magnets help maintain a secure, comfortable fit throughout the day.

Upgraded double-sided connector enables hassle-free insertion from either side.

# OA Series One-Piece Magnetic Silicone Strap

Material: TPU+silicon+magnet

Features: Magnetic design, easy to take off and wear;  
Integrated design provides comprehensive protection for the watch;  
Soft silicone, comfortable and durable;  
TPU watch case, disassembly and assembly will not damage the watch;  
Can be washed and reused.

## GS Series Double-layer Braided Loop Strap

Material: polyester fiber + stainless steel

Features: Double-layer woven breathable fabric;  
Soft and skin-friendly, wearable for a long time without getting tired;  
Rust-resistant and corrosion-resistant 6-shaped stainless steel buckle;  
Snap-on interface, easy to disassemble and assemble.

# YC Series Double-layer Braided Loop Strap

Material: aluminum alloy + nylon

Features: Made of double-layer nylon;  
Seamlessly woven, light, soft and durable;  
Hole chain structure, refreshing and breathable;  
Snap-on interface, easy to disassemble and assemble;  
Comfortable to wear.

# YJ Series Nylon Velcro Strap

Material: stainless steel + nylon

Features: Highly elastic nylon yarn fabric;  
Light and weightless;  
Snap-on interface, easy to disassemble and assemble;  
Refreshing, breathable and comfortable to wear;  
Velcro buckle, easy to take off and put on.

# Mixture II Series Nylon Braided Strap

Material: stainless steel + nylon

Features: Highly elastic nylon yarn fabric;  
Light and weightless;  
Snap-on interface, easy to disassemble and assemble;  
Refreshing, breathable and comfortable to wear.

## Rich Texture High-Elastic

High-elastic  
nylon yarn

## Breathable

Ultrathin silicone threads  
comfortable and breathable

## Buckle Stainless Steel

Adjust it forward or  
backward to achieve the  
proper position, then fasten it.

# Mixture Pro Series Nylon Magnetic Strap

Material: zinc alloy + nylon + magnet

Features: Highly elastic nylon yarn fabric;  
 Light and weightless;  
 Snap-on interface, easy to disassemble and assemble;  
 Refreshing, breathable and comfortable to wear;  
 Magnetic buckle, easy to take off and wear.

## Milanese Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: Magnetic design, easy to take off and wear;  
Made of precision stainless steel;  
Snap-on interface, easy to disassemble and assemble;  
Refreshing, breathable and comfortable to wear.

## Milanese Pro Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: Magnetic design, easy to take off and wear;  
High density and high corrosion resistance SUS444 stainless steel;  
NP+CP double-layer coating, more scratch-resistant;  
Snap-on interface, easy to disassemble and assemble;  
Refreshing, breathable and comfortable to wear.

## Milanese Air Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: It is made of 430 corrosion-resistant stainless steel after weaving and polishing. It is cool and breathable, feels smooth to the touch, and is comfortable to wear on the wrist;  
The magnetic buckle made of N52 strong magnets can easily fix the strap tightly on your wrist without moving;  
It is suitable for almost all wrists and can be worn on a variety of occasions;  
The repeatedly polished connector fits perfectly with the card slots on both sides of the dial. It can be disassembled and assembled with just a light push, which is very convenient to use.

# Business Series Real Leather Strap

Material: cowhide + stainless steel

Features: Native cowhide, fine leather, natural color;  
"Saddle stitch" hand stitching;  
Rust-resistant and corrosion-resistant stainless steel buckle;  
Soft, breathable and durable;  
Snap-on interface, easy to disassemble and assemble.

## YA Series Genuine Leather Magnetic Strap

Material: cowhide + zinc alloy + magnet

Features: Delicate leather, natural color;  
 "Saddle stitch" hand stitching;  
 Magnetic buckle, easy to take off and wear;  
 Soft, breathable and durable;  
 Snap-on interface, easy to disassemble and assemble.

# YS Series Genuine Leather Strap

Material: cowhide + stainless steel

Features: Delicate leather, natural color;  
 "Saddle stitch" hand stitching;  
 Soft, breathable and durable;  
 Snap-on interface, easy to disassemble and assemble.

# Bamo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;  
The hole position is precise and does not affect the daily use of the watch;  
There is no need to remove the protective case when disassembling the watch strap;  
The back is hollow, which does not affect wireless magnetic charging;  
Easy installation.

# Tamo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;  
The hole position is precise and does not affect the daily use of the watch;  
There is no need to remove the protective case when disassembling the watch strap;  
The back is hollow, which does not affect wireless magnetic charging;  
Easy installation.

# Camo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;  
The hole position is precise and does not affect the daily use of the watch;  
There is no need to remove the protective case when disassembling the watch strap;  
The back is hollow, which does not affect wireless magnetic charging;  
Easy installation.

# Damo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;  
The hole position is precise and does not affect the daily use of the watch;  
There is no need to remove the protective case when disassembling the watch strap;  
The back is hollow, which does not affect wireless magnetic charging;  
Easy installation.

# Hamo Series Electroplated PC Hard Case

Material: PC

Features: Electroplating process, fashionable and gorgeous;

360° all-inclusive protection;

Transparent cover with sensitive touch operation;

The hole position is precise and does not affect the daily use of the watch;

There is no need to remove the protective case when disassembling the watch strap;

The back is hollow, which does not affect wireless magnetic charging;

Easy installation.

## Eapa Series Tempered Glass Screen Protector

Material: high alumina tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;  
Full screen coverage to the edge for full protection;  
Nano-oleophobic coating, sensitive touch, anti-fingerprint;  
Full screen HD view;  
Comes with installation auxiliary tools, easy to install.

## Flas Series Screen Protector With Metal Frame

Material: high alumina tempered glass + aluminum alloy

Features: Fashionable and gorgeous aluminum alloy frame;  
9H hardness, explosion-proof and wear-resistant;  
Full screen coverage to the edge for full protection;  
Nano-oleophobic coating, sensitive touch, anti-fingerprint;  
Full screen HD view;  
Easy installation.

## Pmma Series Composite Soft Screen Protector

Material: TPE+PMMA

Features: Pmma composite material, high toughness, impact resistance;  
Full screen coverage to the edge for full protection;  
Nano-oleophobic coating, sensitive touch, anti-fingerprint;  
Full screen HD view;  
Comes with installation auxiliary tools, easy to install.

# TWS CASE

# PECA Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECB Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECC Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECD Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECE Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECF Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECG Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Pop-on switch;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECH Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Pop-on switch;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECI Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Pop-on switch;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECJ Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Pop-on switch;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECK Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Pop-on switch;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;  
Split design, easy to disassemble and assemble;  
Metal hook, easy to carry.

# PECL Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;  
Comfortable in hand;  
Pop-on switch;  
Open and close freely without affecting Bluetooth connection;  
The hole position is precise and does not affect wired charging and wireless charging;

 Metal hook, easy to carry.

# SCREEN PROTECTORS

# HAWK Series Camera Lens Protector

Material: AF+AR tempered glass+aluminum alloy

Features: Its surface has a vacuum-plated oleophobic coating, which is highly anti-fingerprint and keeps the lens as clean as new;  
The transmittance of AR anti-reflection film reaches 95%, restoring the high-definition pixels of the original lens;  
Carefully developed lens protector with 0.15mm narrow frame;  
It uses high-hardness tempered glass, which can easily cope with daily bumps;  
It is compatible with all phone cases with a big hole for the camera.

# Tempered Glass Screen Protector for Mobile Phone

---

Material: Aluminum tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;  
Full screen coverage to the edge for more comprehensive protection;  
Nano-oleophobic coating, sensitive touch, anti-fingerprint;  
Full screen HD view;  
Automatic exhaust, easy installation.

# Tempered Glass Privacy Film for Mobile Phone

Material: high alumina tempered glass

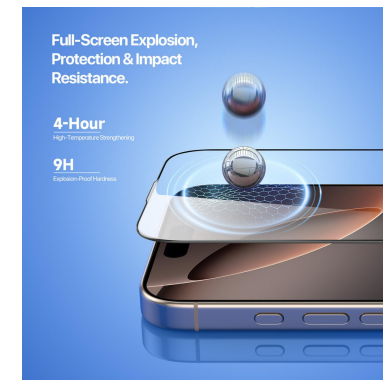

Features: 30° anti-peep, high-definition visible from the front, invisible from both sides;  
9H hardness, explosion-proof and wear-resistant;  
Full screen coverage to the edge for more comprehensive protection;  
Nano-oleophobic coating, sensitive touch, anti-fingerprint;  
Automatic exhaust, easy installation.

# ROGA Series Tempered Glass Screen Protector for Mobile Phone(with Dust-free Auto Alignment Kit )

Material: High-Aluminum Glass

Features: Full-Screen HD Coverage with Original Display Quality;  
9H Hardness & Anti-Shatter Protection;  
Plasma Oleophobic Coatingt,  
Resists fingerprints and stains while maintaining  
a silky-smooth touch;  
Dust-Free Installation Design, One-step alignment  
ensures bubble-free, dust-proof application;  
0.33mm Ultra-Thin Responsive Touch.

# NAAD Series Removable Paper-Like Film

Material: PET

Features: Micro-matte surface, real paper writing experience;  
Nano glue-free adsorption, no damage to the screen coating;  
Automatic adsorption without bubbles, easy disassembly and assembly;  
Fits the screen tightly without slipping or shifting;  
Washable and reusable.

# Tempered Glass Screen Protector for Tablet

---

Material: Aluminum tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;  
Full screen coverage to the edge for more comprehensive protection;  
Nano-oleophobic coating, sensitive touch, anti-fingerprint;  
Full screen HD view;  
Automatic exhaust, easy installation.

# PHONE STRAPS

# Plaz Series Cross-body Phone Lanyard

Material: zinc alloy + TPU + polyester
